

# FlaviNOx™

Item #75780 90 Vegetarian Capsules

---

## The Possible Benefits of FlaviNOx™, a Dietary Supplement

- Provides a full-spectrum of standardized herbal bioflavonoid antioxidants
  - May help down-regulate oxidative stress involving the NO/ONOO-cycle mechanism
- 

## Description

FlaviNOx™ is a state-of-the-art combination of herbal extracts with standardized bioflavonoids, providing broad spectrum antioxidant protection.\* This formula is a full representation of a particular class of nutrients, that of the naturally-derived herbal flavonoid family. These herbal bioflavonoids share structural similarities, and are thought to have both individual actions and to work synergistically, providing nutritional support for any situation involving oxidative challenge or stress.\* Standardization insures they have potent bioflavonoid antioxidant activity.

FlaviNOx™ is based on the original work of Martin Pall, Ph.D., School of Molecular Biosciences, Washington State University. Dr. Pall has identified the NO/ONOO-cycle – the stress-induced increase in the levels of nitric oxide and its oxidant product peroxynitrite, and the biochemical vicious cycle that keeps these levels chronically elevated – as a key mechanism underlying the oxidative stress associated with many chronic conditions.\* Various individual and full-spectrum antioxidant preparations may assist in down-regulating this NO/ONOO-cycle mechanism.\*

Serving Size: 1 Vegetarian Capsule

Servings Per Container: 90

### Amount Per Serving:

Milk Thistle (Seed) Extract (Standardized to 80% Silymarin)	80 mg
Bilberry (Berries) Extract (Standardized to 25% Anthocyanidins)	100 mg
Ginkgo (Leaves) Extract (Standardized to 24% Flavonglycosides and 6% Terpene Lactones)	40 mg
Grape Seed Extract (Standardized to 50% Polyphenols)	100 mg
Green Tea Extract (Decaffeinated, Standardized to 35% EGCG)	80 mg
Cranberry Juice (Berries) Extract	100 mg
Hawthorn (50% as Berry and 50% as Leaves and Flowers) Extract (Standardized to 1.8% Vitexin-2-O''-Rhamnoside)	100 mg

Other ingredients: Hydroxypropyl methylcellulose, cellulose, silicon dioxide, magnesium stearate.

**Suggested Use:** As a dietary supplement, 1 capsule three or four times daily, or as directed by a healthcare practitioner.
