

Organic Germanium

(Hypoallergenic)

#51290 50 Vegetarian Capsules

#55340 100 Tablets

#51280 6 Grams Powder

#55260 50 Grams Powder

The Possible Benefits of Organic Germanium, a Dietary Supplement

- Potentially provides support for cellular oxygenation*
- Supplied in the original safe and tested form, bis-carboxyethyl germanium sesquioxide

Description

NutriCology® Germanium is Pure Ge-132 Organic Germanium, a unique organogermanium compound, bis-carboxyethyl germanium sesquioxide, sometimes just called germanium sesquioxide. It has unique molecular characteristics which make it virtually unreactive in the body, and its small particle size and unique structure permit it to be readily cleared in the urine as the intact molecule. Potentially, the body may use germanium as a cellular oxygenator.*

Researchers in Canada published two papers in April, 2004, which finally addressed some of the confusion about organic germanium. Two major factors are cited. First, an error was published in the scientific literature in 1987, and subsequent articles and papers repeatedly cited this error, ignoring a correction published in 1988. The second

source of confusion stems from careless writing in which the many kinds of germanium compounds are not carefully distinguished, and even made to seem as if they are all the same.

NutriCology® introduced pure organic germanium into the United States in 1986. We recognize the importance of providing pure, thoroughly tested Ge-132. To assure the quality and purity of our germanium products, we carefully analyze every lot. Testing procedures include identification by infrared spectroscopy, purity by acid group titration, absence of inorganic germanium impurities by color limit test, and solubility test.

We now offer Organic Germanium in capsule form, powder form, and easily dissolved tablet form.

Organic Germanium Powder #51280 6 grams

Serving Size: 1/8 teaspoon

Servings Per Container: 21

Amount Per Serving:

Bis-Carboxyethyl Germanium Sesquioxide 275 mg

Suggested Use: As a dietary supplement, take 1/8 teaspoon (approx. 275 mg), one to three times daily, or as directed by a healthcare practitioner.

For more accurate dispensing, the entire content of the 6-gram bottle can be mixed into one quart of tepid water. The resulting solution (approximately 95 mg per tablespoon) is stable if refrigerated. As a dietary supplement, 1 or 2 tablespoons of this liquid may be taken one to five times daily between meals, or take as directed by a healthcare practitioner. Shake before use.

Organic Germanium Powder #55260 50 grams

Serving Size: 1/2 teaspoon

Servings Per Container: 45

Amount Per Serving:

Bis-Carboxyethyl Germanium Sesquioxide 1100 mg

Suggested Use: As a dietary supplement, ¼ to ½ level teaspoon (about 550-1100 mg) daily, or as directed by a healthcare practitioner.

Organic Germanium Vegetarian Capsules #51290

Serving Size: 1 Vegetarian Capsule

Servings Per Container: 50

Amount Per Serving:

Bis-Carboxyethyl Germanium Sesquioxide 150 mg

Other ingredients: Hydroxypropyl methylcellulose, cellulose, L-leucine.

Suggested Use: As a dietary supplement, 1 capsule one to five times daily between meals, or as directed by a healthcare practitioner.

OrganoGermanium Tablets #55340

Serving Size: 2 Tablets

Servings Per Container: 50

Amount Per Serving:

Bis-Carboxyethyl Germanium Sesquioxide 200 mg

Other ingredients: Mannitol, stearic acid, magnesium stearate, acacia gum, calcium carbonate, cellulose, silica.

Suggested Use: As a dietary supplement, 1 or 2 tablets one to four times daily, or as directed by a healthcare practitioner.
